

Local Revenue Measure Results November 2016

Voters in California considered over 650 local measures at the November 8, 2016 presidential election. Among these were 430 seeking approval for tax increases, expansions or extensions. K-12 schools districts and community colleges sought a total of \$25.314 billion in 184 separate authorizations for bonds to construct facilities, acquire equipment and make repairs and upgrades. There were 22 measures to increase or extend (renew) school parcel taxes.

Among the 224 non-school local revenue measures were twelve measures asking for a total of \$7.266 billion in bonds including the \$3.5 billion Bay Area Rapid Transit (BART) Measure RR covering three San Francisco Bay area counties, the \$1.2 billion Los Angeles homeless housing and services Measure HHH and Santa Clara County's \$950 million affordable housing Measure A.

There were 88 measures to increase or extend Transactions and Use Tax (Sales Tax) rates. Thirty of these were special (earmarked) taxes requiring two-thirds voter approval. These include 13 countywide measures for transportation improvements. There were 58 city and county majority vote general purpose tax proposals ranging from ¼ percent to one percent.

There were 39 city, county and special district parcel taxes requiring two-thirds voter approval, including five street/road improvement measures, eight for parks /recreation /open space, 14 for fire /emergency medical response, four for hospitals, and four for police.

Coinciding with the statewide Proposition 64 which would legalize recreational marijuana in California, there were 63 local measures related to cannabis including 39 to impose local taxes on marijuana. There were also three measures to tax sugary beverages (in Albany, Oakland and San Francisco).

Overall Passage Rates

Based on election night counts with 100% of all precincts reporting, 343 of the 430 tax and bond measures appear to have passed. However, given the close margins of several measures and additional late ballots yet to be tabulated, this number is likely to change when final counts are completed over the next few weeks.

Local Revenue Measures November 2016

	Total	Pass	Passing ¹
City General Tax (Majority Vote)	120	101	84%
County General Tax (Majority Vote)	15	13	87%
City Special Tax or G.O. bond (2/3 Vote)	33	17	52%
County Spec. Tax, G.O. bond (2/3 Vote)	23	10	43%
Special District 2/3	33	21	64%
School Parcel Tax 2/3	22	15	68%
School Bond 2/3	6	2	33%
School Bond 55%	178	164	92%
Total	430	343	80%

The proportion of passing 55 percent school bond measures is exceeding historic passage rates and several more may yet pass with final tallies. However, it appears just two of the two-thirds vote bonds met that threshold. At least fifteen of the 22 school parcel taxes are passing and several more may yet succeed when the additional ballots are counted.

School Tax & Bond Measures November 2016 - preliminary 9Nov16

The passage rate of local non-school majority vote tax measures also exceeded passage rates in prior years. It appears that at least 114 of the 135 majority vote taxes passed. Among the two-thirds vote city, county and special district special tax and bond measures, 48 of 89 are passing pending final counts. Two out of three general vote tax measures passed.

Measure Outcome by Category

Among non-school local measures, the most common type of measure was a majority vote add-on sales tax (transactions and use tax). Fifty of the 59 passed. By contrast, just half of the 30 special sales tax measures appear to have passed.

Local Add-On Sales Taxes (Transaction and Use Taxes)

Fifty-five cities and three counties proposed general purpose majority vote add-on sales tax rates ranging from ¼ percent to one percent. Voters approved 50 and the Temecula measure may also succeed when additional ballots are counted.

Six of these general purpose majority vote measures were accompanied by an advisory measure specifying the use of the funds should the tax measure pass. The Solano County, South Lake Tahoe and Redding measures failed regardless.

Transient Occupancy (Hotel) Taxes

There were 16 measures to increase general purpose Transient Occupancy (Hotel) Taxes. Twelve passed. Companion advisory measures as to use of funds in Palm Desert and Blythe apparently did not help enough.

Five other TOT measures in four other cities were earmarked measure for specific purpose, making it a special tax, fairly unusual for a TOT, most of which are general purpose. Only Healdsburg approved it's 2 percent increase for affordable housing. The others were defeated decisively including the football stadium and tourism measures in San Diego.

Special District Formation and Utility Tax

Voters in the college enclave adjacent to UC Santa Barbara voted on the question of establishing a special district to provide better public services to the area. Special state legislation was recently signed by the governor allowing voters in the community, if they approve becoming a special district, to adopt a Utility User Tax. Voters approved the district formation but rejected the tax needed to fund enhanced services.

Business License Taxes

There were 50 business license tax measures, all majority vote general purpose except the measure in Colfax which earmarked revenue from a proposed new tax on marijuana activities for sewer service rate relief. That measure failed with 63% yes votes.

Voters in San Francisco, Albany and Oakland joined Berkeley in adopting taxes on the gross receipts of sales of sugared beverages.

This election was marked by the number of measures imposing excise taxes on marijuana activities. This of course is a product of the previous legalization of medical marijuana, and state Proposition 64 legalizing the use of non-medical marijuana, which passed. There were in fact 63 measures relating to marijuana, including 39 imposing taxes. All passed except the Colfax special tax and an initiative measure in Avalon that may have had fatal drafting errors.

General Obligation Bonds

There were twelve non-school general obligation bond measures including a \$3.5 billion bond for transit services in the San Francisco Bay Area and a \$1.2 billion bond for homeless facilities in Los Angeles. All passed except the library bonds in El Cerrito and Pacifica. A measure for a police station in Selma is currently behind but may pass when late votes are tabulated. Taken together, voters approved property tax increases to repay \$7.2 billion in general obligation bonds.

School Bonds

There were 184 school bond measures on the ballot for a total of over \$25.3 billion in school construction bonds. It appears at least 164 of the 178 fifty-five percent vote measures were approved and several more are close and may pass when late votes are counted.

Six measures exceeded the tax rate limits required for a 55% threshold under Proposition 39 of 2000. Just two of these passed.

In all, voters appear to have approved over \$23 billion in local school bonds.

School Parcel Taxes

School parcel taxes fared better than non-school parcel taxes. The ballot included twenty-two local school parcel taxes. Fifteen appear to have passed with several more close enough to succeed when all votes are tallied.
